Insights & Recommendations

Insight 1: Top 3 Leading Districts in Telangana

Rangareddy, Medchal_Malkajgiri, and Sangareddy thrive in investment, employment, and sectors due to their strategic location, strong infrastructure, and business-friendly government policies, making them preferred destinations for investors and industries.

Insight 2: Top Districts Driving Transportation in Telangana

Cities like Hyderabad, Medchal_Malkajgiri, Rangareddy, Sangareddy, and Nizamabad are driving Telangana's vehicle boom due to rapid urbanization and population growth, leading to increased demand for cars and bikes.

Insight 3: E-stamp Challan Growth More Since Pandemic

Document registration had been leading before pandemic in Telangana. Since 2020, there is a significant growth in E-stamp registration and it has been leading.

Insight 4: Annual Improved Registration Revenue

Total Generated Registration Revenue from Telangana is performing better Year-Over-Year from 2019-2022.

Insight 5: Consistent Growth in Fuel Vehicle Sales in October

Fuel vehicle sales reach to the roof in Oct and Nov for four consecutive years because of festivals, new model introductions, and clearance of outgoing model stocks with substantial discounts and benefits at car showrooms

Recommendation 1: Enhancing Urban Employment in Telangana

The government should focus on skill development, support for startups, and diversification of industries in cities. This approach aims to boost urban employment, stimulate economic growth, and create more job opportunities.

Recommendation 2: Achieving Balanced Economic Growth in Telangana

Telangana should work to ensure that economic growth benefits all areas and communities, not just a few. This means creating jobs, protecting the environment, and exploring new industries to make the economy stronger and fairer for everyone.

Recommendation 3: Investing in Sustainable Infrastructure

Allocate resources for sustainable infrastructure development that enhances transportation, digital access, and connectivity while minimizing harm to the environment.

Recommendation 4: Advancing Agriculture through Innovation

Encourage innovation in agriculture by adopting technology and sustainable practices. Support farmers in implementing modern techniques for higher productivity and environmental conservation.

Recommendation 5: Leading the Way in Environmental Conservation

Start programs to safeguard our environment, such as planting more trees, managing water wisely, and reducing pollution. Encourage businesses and communities to be more eco-friendly by offering incentives for environmentally responsible practices.
